

THE 2026-2029 CONTRACT FIGHT IS ON!

TO ALL TWU LOCAL 100 MEMBERS

Join us in fighting for the following:

- 1) **3x\$5:** For a \$5/hour wage hike every year for the next three years!
- 2) **No givebacks!** No “pickpocket negotiations” that pit union divisions/groups/titles against each other! One year to top pay for all!
- 3) **Stop the MTA’s abusive management!** For starters, MTA: Rehire T/O Andy Valentine now!
- 4) **Restore the Traditional Medicare option** for all transit retirees—We’ve paid for it our entire working lives!

We Move New York...But We Can't Afford to Live Here

The “affordability crisis” is *talked about* everywhere these days, but we transit workers are *living it*. Our paltry wages—shrunk by savage inflation, Tier 6 pension payments, giveback contracts and years-long wage progressions—aren’t enough for us to make ends meet in this city. There are huge stakes in the upcoming contract fight between our union and the cruel, corrupt and incompetent MTA bosses. We workers need to fight for demands addressing *our vital needs*, resisting all the impending pressure on us to lower expectations, make concessions and sell out new-hires or any group of vulnerable co-workers. Our fight is also against anti-worker politicians who back up the MTA and ultimately call the shots.

The above contract demands are endorsed by the following groups.
